

Practise

Stage 4 Basic Facts No 10

Strategy: Multiples of 10 up to 100

$40 + 30 =$

$20 + 70 =$

$10 + 30 =$

$40 + 40 =$

$70 + 0 =$

$10 + 50 =$

$80 + 20 =$

$50 + 50 =$

$40 + 10 =$

$30 + 70 =$

$50 + 20 =$

$20 + 10 =$

$20 + 80 =$

$10 + 70 =$

$10 + 80 =$

$100 - 60 =$

$80 - 60 =$

$40 - 10 =$

$70 - 20 =$

$20 - 10 =$

$100 - 40 =$

$100 - 10 =$

$40 - 20 =$

$90 - 40 =$

$90 - 50 =$

$70 - 30 =$

$100 - 60 =$

$60 - 30 =$

$70 - 10 =$

$50 - 40 =$

$\square + 10 = 100$

$90 - \square = 70$

$\square + 70 = 80$

$\square + 10 = 40$

$\square + 60 = 100$

$100 - \square = 20$

$80 - \square = 50$

$20 - \square = 10$

$\square + 30 = 60$

$\square + 20 = 100$

$100 - \square = 30$

$90 - \square = 80$

$\square + 50 = 100$

$\square + 10 = 90$

$90 - \square = 40$

Strategies for solving these problems:

- Use the addition and subtraction facts you already know.
- $5 + 4 = 9$, $50 + 40 = 90$.
- $8 - 2 = 6$, $80 - 20 = 60$.
